

Quality Policy

XP Power's commitment is to achieve operational excellence, creating value for our stakeholders.

This is achieved by:

- Enhancing customer support and service by developing our skills and capability within the organization.
- Ensuring the ongoing reliability of the product by embedding quality into the design through to best in class manufacture.
- Complying with all relevant legislation and regulation and staying abreast of any new and pending requirements.
- Effectively communicating that QUALITY is an organizational commitment.
- Developing a leadership team with a focus on promoting an environment of continuous improvement and risk mitigation.
- Providing the best experience through our knowledge, speed and flexibility to exceed customer expectations.
